Allen Bradley DF1 TCP Master Driver

Information Sheet for Crimson v2.0

Compatible Devices

- Allen-Bradley PLC-5 with Ethernet capability
- Allen-Bradley SLC with Ethernet capability
- Allen-Bradley MicroLogix with Ethernet capability

Verified Device

SLC 5/05

Device Selection

Many PLC-5 users may use the SLC device selection. In order to use the SLC device selection, the PLC-5 processor must have the ability to respond to "protected typed logical write with three address fields" commands.
