Keep Networks Connected

ETHERNET SWITCHES

UNMANAGED

100, 1000, SL, SLX

- Compact IEEE 802.3 Layer 2 industrial switches
- Automatic speed detection
- Duplex and cable sensing
- For use in mission-critical applications
- Plug-and-play functionality

IP67 INDUSTRIAL SWITCHES

- Rugged IP67/NEMA 6 enclosures
- Versatile unmanaged and managed solutions
- Hardened for the toughest applications
- Ultra-rugged*

  MIL-Grade solutions available.

NEW!
NT5000

MANAGED

700, 7000, NT24k, NT4000, NT5000, SLX

- Layer 2 managed industrial switches
- Rugged packaging supports extreme environments
- Powerful network management
- Gigabit network connectivity*
- EtherNet/IP™ and PROFINET® models available

  Model specific features

INDUSTRIAL POE SOLUTIONS

100-POE, 1000-POE, NT24k, EB, SLX

- Switches, injectors and splitters
- IEEE 802.3af IEEE 802.3at Power over Ethernet models available
- Transmits power and data over a single cable

ADVANCED MANAGED

NT328G

- Layer 3 rackmount industrial switches
- Rugged enterprise-class networking
- Advanced security features

WIRED ROUTER

RAM® 6021

- Secure routing from LAN-to-LAN or LAN-to-WAN
- Supports up to 25 VPN connections
- Intrusion protection via stateful firewall using SPI
- NAT translation

COMMUNICATON CONVERTERS

PROTOCOL CONVERTERS

FlexEdge DA50, DA70

- Modular architecture for additional communication capabilities including cellular, Wi-Fi, serial and USB
- Advanced networking support through routing, NAT, firewall, and VPN support to ensure data security
- Supports up to 10 simultaneous protocol conversions between over 300 industrial drivers (optional)

MEDIA CONVERTERS

102MC, 1002MC, SL

- Compact and DIN rail mountable
- Wide operating temperature ranges
- Rugged packaging to support extreme industrial environments
