CUB1 to CUB7 Counter Comparison

Introduction

The CUB1 was introduced in 1982 as one of Red Lion's first counters – an innovative alternative to existing electro mechanical counters. With over 30 years of sales, many customers continue to use the product today. In 2009, we launched the CUB7 counter as the new and improved replacement. It features all plastic construction, a built-in battery, DIP switch programming, and a better price. Despite its continued value, given the availability of critical parts and the CUB7 counters' compelling advantages, it is necessary to discontinue the CUB1 counter.

This document describes the alternatives available and provides information on how their features compare with one another.

Timing

Red Lion Controls intends to honor the standard warranty obligation for this product when ordered and delivered in accordance with the following transition schedule:

March 2017

- Announcement to customers
- Red Lion begins accepting non-cancellable, non-returnable last time buy orders
- Orders may be scheduled for delivery between March 2017 and December 31, 2017

September 30, 2017

- General availability of CUB1 counters ceases
- Acceptance of last time buy orders concludes

December 31, 2017

- Shipment of CUB1 counters stops

Why is this transition taking place?

The CUB7 counters were designed with new features that meet or exceed those available on the CUB1 counter. The sales of the CUB7 counters far exceed those of the CUB1 counters and maintaining both products is no longer possible.

What happens to my current investment in CUB1 counters?

Maintaining excellent compatibility for easy and cost-effective transition is an important design criterion when designing next generation products. Red Lion Controls recommends the CUB7 counter as a designated replacement for the CUB1 counter. The CUB7 provides longer battery life, improved capability, and at a lower price while still maintaining functional compatibility.

Please see Appendix A for a detailed comparison of the two products.

*Dates may be subject to change depending on product sales

Appendix A

Comparison of CUB1 Counter and CUB7 Counter

The CUB7 counter is the designated replacement for the CUB1 counter. The chart below compares the features of the 2 products.

CUB1 Counter

CUB7 Counter

	CUB1 Counter	CUB7 Counter
Part Number	CUB10000	CUB7CCS0
Power	2 "N" size replaceable batteries, with nominal 4 year life	Non-replaceable Lithium ion battery, with nominal 7 year life
Construction	Metal bezel	Plastic
Connections	Wires	Wires or terminal block
Input Flexibility	Low or high speed set with wire input	One input, with speed selectable via DIP switch
Count Speed	5 kHz	5 kHz
Display Type	Reflective	Reflective
Display Height	0.2 in	0.35 in
Mounting Considerations		Direct replacement
List Price	\$ 93.00	\$ 50.00

Prices listed are Red Lion standard list price at time of publication, in USD. Pricing is for illustrative purposes only and does not constitute a quote.

CUB1 Input Connections
