PRODUCT END OF LIFE NOTICE

Red Lion RA70S and RA70K series have been redesigned with new features, such as a nano-sim slot and on-board edge connectivity (additional licenses apply). The part numbers have been updated to reflect these changes, and the current part numbers product design are end of life.

Red Lion Controls will be launching the redesigned RA70S and RA70K products starting Q1 of 2024 through a staggered roll out of devices throughout the year. Current products will ship while inventory is available. Additional details will be shared as devices become available. The RA70 redesign details can be found here RA70 Redesign | MB connect line.

Warranty claims will be honored through repairs as long as components are available or through replacement with the redesigned product, as outlined in Red Lion's Terms and Conditions.
