PRODUCT END OF LIFE NOTICE

Red Lion® N-Tron 116TX Switch

Red Lion Controls® announces the end of life of its N-Tron® 116TX unmanaged Ethernet switch. Red Lion will honor warranty obligation for in warranty products and continue to offer repair services for out of warranty switches as long as parts remain available.

Final purchases of the 116TX will be accepted based on product availability. Non-cancellable, non-returnable last time buy orders for the 116TX products must be placed for immediate delivery.

Recommended replacement is the NT116.

Red Lion announced the launch of the N-Tron® NT116 in June 2024. The N-Tron® NT116 is the next evolution of Red Lion's 116TX unmanaged industrial ethernet switch.

The NT116 features:

- o Compact, rugged industrial metal enclosure
- o 16 high performance 10/100BaseTX RJ45 port
- o High shock and vibration tolerance
- o Built in ESD and surge protection
- o Operation in temperatures from -40°C to 85°C.
- o ATEX, IECEx, UL Ordinary and Hazardous location approvals, in addition to marine, railway and rolling stock certifications.
